

Rushton Community Minibus

Report for RPC Meeting on the 25th September 2024 prepared by Mike Brightman

The Committee & Drivers meeting has not taken place as previously reported due to holidays and other commitments.

We will be holding a meeting with the committee including the drivers to review the current minibus operation and look at some new ideas and suggestions for the future operation of the services. Date and time to be arranged.

The Minibus is in good working order with no issues or faults. Annual service will be carried out on the 24th September, Road Fund Licence is due on the 30th September and the MOT on the 29th October.

The Minibus registered shopping trips (Monday & Friday) have been added to the Northamptonshire Electronic Bus Timetable system.

The End of Grant Report for the NCF Rushton Community Minibus Funding Support Grant for 23/24 has been completed and successfully closed.

This funding contributed to the running costs for the Community trips between July 23 to August 24. We will continue to run these very successful and well supported trips funded from the Minibus income.

More details on future plans for these trips will be discussed at the CMB committee and drivers meeting. We will also issue the results of the passenger survey which was required to support the end of grant report.
